

## Extra Activities

At Small Wonder Children's House, We provide a wide variety of after class activities for your children. Amongst the activities include:

- Mandarin for primary (this year, run during school hours)
- Ballet
- Taekwondo
- Helen O' Grady Speech & Drama
- Fardhu Ain (for muslim children)

### Activities

Realizing that most Malaysian parents work full time, The House has taken the initiative to organize additional classes to be held after school hours at the school premises. This reduces the hassle of traveling to individual centers for various other classes when parents return home after work.

Mandarin for Primary School (Tues, wed, Thurs, Fri):

The classes are aimed to prepare the child for enrolment into Chinese Type Primary Schools. Parents have voted that they prefer the class to be during school hours, so that after school (3pm-4pm) their child is free to join other activities on offer.

Ballet (Mondays):

Plaza Dance Academy holds Ballet classes at our premises once a week. Classes are held from 3pm-4pm on Mondays(adv) and Tuesdays (beg). For children born in 2009, 2010 and 2012 only

Art and Craft (Tuesdays):

Global and Creative Art conducts art and craft classes for the children of The House. The art class aims at helping children enhance perceptiveness when looking at objects to draw/colour. Children learn perspective, drawing objects/people, shading etc. Craft classes aim to develop their creativity while having lots of fun. Classes last 1 hour. Classes are held from 3pm-4pm on Tuesdays. For children born in 2009 and 2010 only  
Children can continue Art classes at Global and Creative Art when they enter primary and secondary schools. Music (Wednesdays):

Anne Musikshule sends a teacher to conduct classes; for the 2-6 year olds. All teachers are trained in the Oerff Schulwerk Method (A german method utilizing body percussion as well as conventional instruments). Children have a lot of fun during class which last 45 mins. Classes are held from 3.15pm-4pm on Wednesdays. For children of all ages.

Drama (Thursdays):

Drama teaches a child self confidence, less fear of public speaking, as well as a better ability to express one's self. Blubricks Learning Studio provides us with an experienced teacher who comes once a week to conduct sessions. Classes are on Thursdays 3pm-4pm and last for an hour each time. Children can continue Drama classes at the studio even when they are older and have left SWCH. For children born in 2009 and 2010 only

Taek Won Do (Fridays):

Strength and Honour Taekwondo holds Taekwondo classes at our premises once a week. Children will begin at the 1st level (white belt). Children previously enrolled will start at the level they left the previous year. Gradings will be carried out every few months. As your child will receive certificates from the Malaysian Taekwondo Association, he/she will be allowed to start from his/her current belt colour when enrolling for TKD classes in primary school. Taek Won Do will help instill good self control, discipline, not to mention physical awareness, flexibility and better self confidence. Classes are from 3pm-4pm every Friday. For children born in 2009 & 2010 only

Strength and Honour also run TKD classes for older children and adults at our premises on Saturdays and Sundays. Please contact Master Ruben (016-275 7859) for more info on weekend TKD classes. Ugama/Fardhu 'Ain:

Fardhu Ain classes are conducted daily for the muslim children born in 2009 and 2010. Each child attends twice a week (Tues, and Thurs) from 3pm-4pm

We regret to inform that "Iqra" classes are no longer held at Small Wonder Children's House during/after school hours.

Other Student Activities:

- Field Trips twice a year
- Sports Day
- Concert/Graduation at the end of the year
- Birthday Parties
- Grocery Shopping Trips
- Picnics
- Post box trips
- festive celebrations

Note: Activities organized by The House are aimed at reducing stress on the part of the parent in arranging logistics and transportation for your child by being a One-Stop centre. Please take your time in selecting classes for your child, and not select a class simply because it is "popular". Children benefit from continuity, so do try to continue the activity chosen even after your child has left The House for Std 1.
