

Kid E-Cam

Kid E-Cam is a webcam solution which allows parents to view their babies/toddlers/children from the comfort of their offices. Whether they are traveling overseas or working in a hectic office, they can conveniently take a peek at their kids through the Internet.

Watch them grow...

Using advance video equipment, Kid E-Cam directly helps parents keep track of their children's development. Imagine for a moment when kids may go home and say, "Mum, today's painting class was fun!" With Kid E-Cam in place, mum can nod knowingly because she might have glimpsed the actual event.

Parents access Kid E-Cam via this website. The website also communicates all kindergarten information through various facilities such as bulletin boards, photo albums and event calendars. Through the website, the parent will be able to:

- Access the camera system via a secure login procedure.
- Get the latest information about Small Wonder Children's House and Playhouse events and activities.
- View photo albums published on events.
- Keep up to date with the kindergarten's latest schedule.
- Contact Small Wonder.

Kid E-Cam at Small Wonder Children's House

Currently Kid E-Cam is running with 8 cameras; 4 upstairs and 4 downstairs. All Small Wonder Children's House parents are invited to watch your child at work and play in class. You must first login to the system via the website's front page to get access to the cameras. Please get the user name and password from the Small Wonder Children's House principal. A user name and password is required to login.

You will need to click on the room where your child is to view what is happening in each room.
